SAFETY IS EVERYONE'S CONCERN! The enforcement of DRRC rules is the responsibility of every member!

Violations of DRRC SOPs will be subject to review and possible suspension/expulsion from the club.

The Ten Rules of Gun Safety

1. Always keep the gun pointed in a safe direction.
2. Always keep your finger off the trigger until ready to shoot.
3. Always keep the gun unloaded until ready to use.
4. Be sure the gun is safe to operate.
5. Know how to use the gun safely.
6. Use only the correct ammunition for the gun.
7. Know the target and what is beyond.
8. Wear ear and eye protection as appropriate.
9. Never use alcohol or drugs before or while shooting.
10. Store guns so they are not accessible to unauthorized persons.

Handbook published by
Douglas Ridge Rifle Club
Published by authorization of the Board of Directors
www.douglasridge.org

DRRC Organization and Operation

Douglas Ridge Rifle Club was founded in 1956. The Club sits on approximately 130 acres of woods (primarily Douglas Fir), open meadows, and a ridge rising 400 feet above the flatland. Neighboring properties are a mix of agricultural land, residences, and commercial businesses. DRRC is operated under a conditional use permit, and over the years DRRC has expanded to include multiple ranges and supports many shooting disciplines. Our 1,000-yard Range is one of the longest Known Distance Ranges in the state and one of the very few on the west coast.

DRRC is run by a Board of Directors governed by a set of bylaws. Officers are President, Vice President, Secretary, Treasurer, and Executive Officer, and six Directors. A range host lives on the property. A Chief Range Safety Officer (CRSO) is in charge of training Range Safety Officers (RSO) who, in turn, supervise shooting safety at the range.

Individual shooting disciplines are organized and directed by Discipline Directors who are approved by the Board and are in charge of organizing, scheduling and running matches and practices. They are aided by Range Safety Officers to insure that all range activities are safe.

A monthly newsletter is published and is provided electronically to members. Each newsletter has a current activity calendar and other information that members need to be aware of including the names and contact information for Officers and Discipline Directors.

General Membership meetings are held on the first Thursday of each month and Board Meetings are held on the last Thursday of each month. All members are encouraged to attend. Douglas Ridge Rifle Club is handicap access friendly.

DRRC is wholly supported and managed by volunteer members. Each member is asked to contribute some of their time and energy each year to maintain and/or improve the club. This can be accomplished by volunteering to help at club events, at hunter sight-in days, annual range clean-up day, regular Tuesday range workdays, and/or doing specific jobs that frequently occur. Every member has one or more talents than can be used by the club. Whatever your talent, it can be used to benefit the club and the shooting sports.

www.douglasridge.org

Range Safety Officers and Discipline Directors

Range Safety Officer (RSO)

Range Safety Officers (RSOs) are certified by the NRA and sanctioned by the DRRC Chief Range Safety Officer to supervise range and shooting activities. RSOs must have and retain NRA RSO credentials. RSOs (along with discipline directors) supervise shooting activities as prescribed by the range Standard Operating Procedures (SOPs), and specifically:

- Control the firing line.
- Maintain order on the range.
- Ensure that shooters follow range regulations.
- Enhance the security of firearms and equipment on the range.
- Take charge during an emergency.
- Conduct basic inspection procedures for all ranges, including backstop, ventilation systems, target carriers and frames, downrange area, communication systems, etc.
- Help educate range users about range and shooting rules and enforce the rules when necessary.
- Conduct range safety briefings for shooting events and orientation briefings for new users.
- Are to be informed/consulted about any range problems or malfunctions immediately.

Chief Range Safety Officer (CRSO)

The DRRC Chief Range Safety Officer is an NRA CRSO trainer that is appointed by the board. The CRSO has overall responsibility for all aspects of safety on DRRC property. They are responsible for recommending, evaluating and enforcing the Standard Operating Procedures that determine what activities and actions are approved on DRRC property. The CRSO is responsible for training club members to be RSOs. The CRSO schedules RSOs for club sanctioned events and reports activity to the board and membership.

The DRRC board of directors would like to encourage any member to consider training to become a Range Safety Officer. If interested contact the DRRC CRSO for more information.

Discipline Directors

Discipline Directors plan, coordinate, administer, run, and supervise range shooting practices and events. They oversee the event, and with the aid and consultation of Range Safety Officers, they are the final authority on range conduct and activities during that event. Occasionally certain range SOPs are altered for specific events. NRA Certified Firearms Instructors, during an approved class, may alter range rules for instructional purposes, so long as it does not violate safety rules. All concerns encountered during an event should be addressed to the discipline director, instructor or, in the case of an emergency or safety issue, to an RSO. Discipline Directors are appointed by the board (Section 1113 of the bylaws) and sign 2-year Discipline Director Agreement.

Standard Operating Procedures All Ranges

Law Observation - Members and guests must observe all local, state, and federal firearms laws.

Drugs & Alcohol –

- No member or guest shall be on the property or using a firearm while under the influence of alcohol, behavior impairing substance or illegal drugs.
- Members and guests shall use good judgment when taking prescription and over the counter medications to ensure they are safe when around and using firearms.

Range Availability – It is the members' responsibility to look at the web calendar to see if the range they wish to use is available. Classes, competitions, maintenance or other conditions will be documented on the club calendar: www.douglasridge.com/calendar.html.

Standard Operating Procedures All Ranges (continued)

- Outdoor firearm ranges are open Monday-Friday from 8am until legal sunset.
- **Saturday, Sunday and federal holidays** outdoor ranges are open from **9am** until legal sunset.
- The Archery Range is open from sunrise to legal sunset.
- The indoor range is open from 8am-10pm.

Guests–

- Senior, Family Associate, Old-time or Life members may bring, no more than a combination of four (4) shooting guests and/or regular associate and/or junior members with them at one time.
- Regular associate and junior members count as part the 4 maximum guests that one member can bring.
- Non-member shooting guests (18 years and older) are required to sign in and pay a guest fee.
- Each guest should have their own yellow, guest fee envelope.
- Non-members who are participating in a scheduled open shooting event/competition are not subject to the guest fee at the gate. They will pay this with their competition fee.
- Non-member shooting guests shall provide proof of guest fee payment to any member upon request.
- Guests/regular associate/junior members are to be aware of and observe the rules, safety procedures and range courtesies.
- Guests/regular associate/junior members must remain with a senior, family associate, old time, or life club member at all times when on club property.
- Senior, family associate, old time or life members are **ultimately responsible** for the guests', regular associate and junior members' actions and behavior.

Membership Cards –

- Members are to display, upon their person or range bag, their membership card while on club property.
- If asked for identification, club members shall immediately show their membership card and/or Long-Range card as appropriate.
 - Refusal to show identification is grounds for expulsion from DRRC property
- Members shall not give anyone their access card to the entry gate, clubhouse or other codes, combinations, or keys to unauthorized persons.
- Members should swipe their badge at the gate every time they come onto the property regardless of the gate already being open – do not simply follow another member through the gate.
- All members must keep ALL current contact information on record with DRRC.

Lead Warning – Lead is a key component of modern ammunition:

- It is recommended that you wash your hands immediately after shooting using cold water.
- Food or drink should not be consumed on the firing line.

Smoking - Smoking is only allowed in the paved or graveled parking lots.

Cleaning Your Area - All members and guests are required to pick up all shell casings, targets and trash and discarding them in appropriate containers.

Ammunition Restrictions - Tracer, incendiary, armor piercing, steel core (including green tip 5.56) and .50 BMG ammunition are not allowed on any DRRC range.

Concealed/Open Carry –

- Persons with a valid Oregon Concealed Handgun License may carry concealed so long as the firearm always remains concealed.
- Concealed carry may not be allowed during certain events; the discipline director/event coordinator have final say.
- Open carry is prohibited.

Standard Operating Procedures All Ranges (continued)

- Law enforcement personnel, in the course of their duties, may open carry loaded firearms.

Handling of Firearms –

- No one shall discharge a firearm that they are not knowledgeable about or capable of operating.
- Firearms must be unloaded and their actions open until on a designated firing line and ready to fire.
- All firearms (including handguns) must be unloaded, actions open and have an Empty Chamber Indicator (ECI) or (empty chamber flag) installed unless you are on an active, hot line – ECI's must be installed before the line can be declared cold – muzzleloaders will be unprimed, racked & have an ECI placed in the muzzle.
- At anytime a firearm is not on a Hot Line it will be in your vehicle, a gun rack, or on a shooting bench. Anytime when in a gun rack or when on bench on a cold line it **Will Have an Empty Chamber Indicator in the breech.**
- When handling any firearm on a hot line the muzzle shall be pointed in one of two directions, Straight UP or Down Range and the action shall be open.

Hot Firing Line –

- All persons must remain behind the firing line while the range is "hot", whether others are shooting or not.
- All shooters must maintain the same firing line.
- The first shooter picks the firing line distance and may hold that distance for up to 1hr after another shooter requests a change in firing line location.
- Exception to the 1hr rule is Long Range Thursday, priority is given to the range dictated by the calendar – e.g. 200y shooter must yield to 800y shooter if the calendar states 800-1000.
- Firearms may be removed or brought to the firing line **only** during a hot line.
- **The range is NOT SAFE/COLD until it is declared SAFE/COLD.**

Cease Fires –

- ANYONE on any range may call a cease-fire in the event of any perceived unsafe condition
- All shooters must abide by a cease-fire call instantly! No exceptions!
- Upon a “cease-fire!” all shooters are to immediately take their finger off the trigger, keep the muzzle pointed in a safe direction and await further instructions from an RSO, discipline director, or the person that called the cease fire.
- There is to be no further handling of firearms during a cease-fire condition!

DISCIPLINE DIRECTORS AND RSOs ARE THE ULTIMATE AUTHORITY. THEIR DIRECTIONS ARE ABSOLUTE.

Safe/Cold Firing Line –

- **NO HANDLING** of firearms (including setup and removal) in the firing area when the range is safe/cold.
- No person is to be at the firing line or on a shooting bench during a safe/cold range.
- Do not handle, pick up or remove anything on a firing bench.
- Do not police your brass from under a bench or anywhere near the firing line.
- No person is to be in front of the firing line during a safe/cold range unless down range setting targets, setting up a chronograph, or clearly in front of the line and benches policing brass.
- Setting up equipment such as a chronograph or portable target frames may be done during a safe/cold line. The bench portion of setting up a chronograph must be done after the line is called **HOT.**
- Whoever initiates a cold line is responsible to make sure everyone makes their firearm safe and that everyone is off the line before declaring the line “cold”. The same person is also now responsible to make sure everyone is back and behind the firing line before declaring the line “hot”. If the person calling for a “cold” line is leaving the range before it is ready to go hot, they should specifically pass that responsibility off to another person on the line.

Standard Operating Procedures All Ranges (continued)

- Just because someone asks you if you are ready to go “cold”, that does not mean the line is safe and you can just go down range. Wait for the person initiating the cold line to declare the line “cold”.

Policing Shell Casings –

- Policing of casings in front of the firing line may only be done during a SAFE/COLD line and you must stay clearly away from all shooting benches.
- Policing of casings from under or between benches may only be done during a HOT line.

Eye/Ear Protection - **STRONGLY** recommended for all shooters/observers.

- Eye and ear protection is required for all shooters/observers under 18 years on any firearm range.
- Ranges where steel targets are engaged at less than 50 yards, all shooters/observers must wear eye protection.
- Some matches and disciplines require eye/ear protection for participants and spectators. The discipline director/event coordinators have final say.

Rapid/Automatic/Burst Fire –

- You may not fire any faster than you can keep all rounds on a standard silhouette size target (21” X 24”).
- Bump firing or simulated full auto or burst fire is not allowed. Bump Firing includes but is not limited to:
 - Using grip and or stance to cause bump or simulated full auto or burst firing.
 - Using any device to cause bump or simulated full auto or burst firing.
 - Using paddle triggers so fast that others believe that you are bump firing.
- Full auto or burst fire firearms may only be used in semi-auto mode.

Targets –

- Only paper and fixed steel reactionary targets are allowed.
- Non-fixed reactionary targets such as cubes, triangles, balls, etc. that are designed to move across the ground when shot, are not allowed.
- Cans, bottles, plastic jugs, empty paint cans, trash etc. are not allowed!
- Clays are **ONLY** allowed on the trap range.
- Exploding targets are not allowed!
- No targets may be placed on top of an impact berm or target pit berm; **all targets must be placed such that all rounds impact into the appropriate impact berm/area.**
- Please be cognizant of where the frame of the target stand is when attaching your target to the stand, do not shoot the frame, number boards, side walls or barricades.
- **Willful destruction of club property will result in disciplinary action up to and including expulsion.**

Aerial Firing - There shall be no aerial firing of any firearm, except for shotguns on the trap range.

Cross firing - Is not allowed (e.g. Do not fire from “station 2” to “target 6”).

Wild Animals On Ranges - It is absolutely forbidden to shoot at any animal or bird on club property.

Security cameras – All club property is under video surveillance.

Driving On Range Fairway – No vehicles are allowed on known distance fairway when damage to turf may occur. A notice will be posted on the Long-Range Shooting in Progress sign to indicate if you are allowed on the field. No vehicles shall drive on shooting berms.

Speed Limits - 10MPH speed limit on all DRRC property.

Concern Resolution –

- All members should make a reasonable effort to resolve disputes with other members.
- If such issues cannot be resolved between members then disputes, concerns, or complaints about range conditions, operations or treatment should be directed to the discipline director, an RSO or a board member.
- If none are available or further intervention is requested, a written request should be directed to the club secretary specifying the concerns, conditions, and persons involved – please include contact information and member numbers of all involved; see bylaws section 1201.

Standard Operating Procedures Indoor Range

(The following is in addition to the Standard Operating Procedures for All Ranges)

Firearms and Ammunition –

- Handguns shooting calibers on the "Acceptable Caliber List" posted at the range door.
- Rifles chambered in .22 rimfire are allowed.
- No pistol caliber carbines
- No .17HMR
- Pellet and BB rifles are allowed.
 - **WARNING:** Low velocity or reduced recoil ammo or low energy rifles such as pellet or BB could result in bounce back from the Linatex curtain. Use additional cardboard backing between the target and the curtain.

Using the Indoor Range –

- Shooters may be no closer than 15 feet from the targets.
- No drawing from a holster unless under the direct supervision of a qualified instructor pre-approved by the CRSO.
- No steel on the indoor range.
- Do not shoot the 2x4 frames. Hang your targets from the Coroplast.
- The ventilation system must be turned on when shooting is taking place.
- Remember to turn off the ventilation system and lights when you are finished shooting.
- Both sets of doors are to be closed when shooting is in progress.
- Portable Benches and Sandbags are to be returned to their stored location after use.

Standard Operating Procedures Tactical Shooting Bay

(The following is in addition to the Standard Operating Procedures for All Ranges)

Firearms & Calibers Allowed -

- Handguns, excluding rifle caliber pistols.
- Pistol caliber shot shell pellets may be used only on the TSB.
- Pistol caliber carbines.
- Shotguns – slugs or pellets.
- Any rimfire.

Using the Tactical Shotgun Bay-

- The trees are not target stands or backstops; do not hang targets on trees.
- Do not shoot at the concrete wall or the right-side safety berm.
- Steel targets shall be set up at minimum of 10 yards with a 15-degree tilt that direct the impact into the ground.
 - Discipline directors at matches may modify these distances according to the rules of their national organization with the concurrence of the DRRC CRSO.
- Firing line will be no further back than the end of the block (North/left) side berm.
- Portable target stands are to be placed under the Silhouette Range cover after use.

Standard Operation Procedure Silhouette Range

(The following is in addition to the Standard Operating Procedures for All Ranges)

Firearms & Calibers Allowed –

- Handguns, including rifle caliber pistols.
- Black powder firearms, muzzle loaders and black powder cartridge.
- Any rimfire.
- Shotguns – slugs only.
- Pistol caliber carbines.
- **Centerfire Rifles only allowed during a sanctioned competition.**

Using the Silhouette Range -

- Observe property lines so that all firing and all bullet impacts are contained to the appropriate impact berm and between the yellow range limit markers.
- Steel targets shall be set up a minimum of 10 yards for pistols/rimfire and 50 yards for slugs with a 15-degree tilt that direct the impact into the ground.
 - Discipline directors at matches may modify these distances according to the rules of their national organization with the concurrence of the DRRC CRSO.
- Target stands are to be returned to the covered firing line when done.
- Turn the red lights on once you have declared the line “cold”.

Standard Operating Procedures Dynamic Range

(The following is in addition to the Standard Operating Procedures for All Ranges)

Firearms & Calibers Allowed –

- Handguns, including rifle caliber pistols.
- Black powder firearms, muzzle loaders and black powder cartridge.
- Any rimfire.
- Shotguns – slugs only.
- Pistol caliber carbines.
- Center fire rifles.

Using the Dynamic Range -

- Steel targets shall be set up a minimum of 10 yards for pistols/rimfire and 50 yards for rifles with a 15-degree tilt that direct the impact into the ground.
 - All steel must be placed at or beyond the 50-yard line to prevent ricochets from splashing onto the 100/200-yard covered rifle range.
 - Discipline directors at matches may modify these distances according to the rules of their national organization with the concurrence of the DRRC CRSO.
- Use caution when shooting from the concrete slab – all bullet impacts must go into an impact berm.
- Benches may be positioned forward of the concrete slab (200yrd firing line).
- Benches must be returned to the block, side wall when finished, off the 200-yard firing line.
- Firing line will be no further back than the end of the block (South/right) side berm.
- If you are the only person shooting you may shoot while moving to the side, up or down range or diagonally (while always keeping the bullets in an impact berm).
- When more than one shooter is shooting at a time a DRRC Range Safety Officer must be present to oversee the activity if there is going to be movement while shooting.
- The new Mini-Berms have been built to add options to the Dynamic Range, (DR). There are target frames stored behind each berm to which cardboard can be attached and then the target attached to that cardboard. The small frames fit into sockets just inside the front rails of each berm to make sure that the fired bullets impact the media of that berm.
- The Mini-Berms are placed at 25, 50, 75 & 100-yards away from the concrete firing line. You can also place the five-foot target frames up against the far impact berm (153+/- yards) also.

- If more than one person or group is shooting in the DR then they must communicate for a cease fire or going back hot again.
- DO NOT set anything on top of the railroad ties to use as a target.
- There are two elevated platforms at the far impact berm for placing stands to hold steel targets to be able to shoot over the mini berms if you want to shoot prone position.

Standard Operating Procedures 100/200 Yard Range

(The following is in addition to the Standard Operating Procedures for All Ranges)

Firearms & Calibers Allowed –

- Rimfire rifles.
- Pistol caliber carbines.
- Center fire rifles.
- Shotgun – slugs only.
- Black powder firearms, muzzle loaders and black powder cartridge.
- Handguns at 25-yard Mini-Berm on lanes 27 thru 38 as available. There are small target frames stored behind the Mini-Berm to use for target backing cardboard. These positions can also be used for bore sighting and getting on paper with rifles.

Using the 100/200 Yard Range –

- Shooters using muzzle-brakes should distance themselves from other shooters as much as possible.
- Shooters may move portable benches to do position shooting. Replace them when through shooting.
- No steel targets on the 100/200-yard range.
- Portable target stands shall not be used on the 100/200-yard range.

200yrd Targets –

- Shoot at the 200yrd targets only from the appropriately numbered benches.
- 200yrd targets may not be used when the lower pits are in use (see calendar).
- Once the line is called cold the person going to the 200yrd targets needs to let shooters know what they are doing and put out the NO SHOOTING flag inside the covered area and turn on the BLUE lights.
- The switch is on the inside of the 100yrd covered area, above the stowed flag holder on the back counter between benches #22 & #23. The Flag Holder, for use is between benches #18 & #19.
- Only the person going to the 200yrd targets is to remove the flag and turn off the blue lights. This will ensure they have returned before the line is called hot.
- No one can remain behind the berm when the range is hot.
- If there is doubt as to whether someone is at the 200yrd target area, then someone must physically go down range and check to be sure that all is clear.

Standard Operating Procedures Archery Range

(The following is in addition to the Standard Operating Procedures for All Ranges)

Firearms & Calibers Allowed –

- No firearms on the archery range.
- Crossbows may be used on the right side of the range at your personal targets only.
- No broadheads allowed in DRRC targets.

Using the Archery Range –

- **No Shooting Flag** - When retrieving arrows from beyond the impact bales, shooters must first display the “No Shooting” flag. No shooting is to take place when the no shooting flag is displayed

until absolute verification that no shooter is beyond the target bales. The 3D range "No Shooting Flag" must be used anytime you are retrieving arrows on the 3D range.

- NO SMOKING on the archery range or surrounding area... PERIOD!
- **Range Closures** - The archery range will be closed during long range events greater than 600 yards, Sporting clays and long-range Thursday (all day – regardless of scheduled distance).

Standard Operating Procedures

Long Range

(The following is in addition to the Standard Operating Procedures for All Ranges)

Orientation – Long Range specific orientation must be completed prior to using the long-range facilities unsupervised. Approved long range shooters may supervise shooters who have not completed the long-range orientation.

Long Range hours are restricted to established times as published in our calendar, in the newsletter and on our website (www.douglasridge.org). Long Range day is on Thursdays.

Rule violators shall surrender their Long-Range Authorization Card to the CRSO, High Power Director or a designee.

***** Do not assume the Long Range is open and safe for shooting, even when it is scheduled. Physically check all outdoor ranges (archery, shotgun, 100-yard, tactical shooting bay, dynamic and silhouette) to ensure there are no people or vehicles down range. *****

Firearms & Calibers Allowed –

- Center fire rifles.
- Rifle caliber handguns.
- Black powder rifles provided there are no persons in the pits.
- Rimfire rifles provided there are no persons in the pits.

Using the Long Range –

- Place the "Long Range In Use" sign on the road at the gate (end of Clubhouse parking lot).
- If shooting from the 800- or 1000-yard lines – verify the archery range is vacant and close the archery chain, NE parking lot & the Range Road Gates.
- The last shooter out is responsible to open the archery chain, remove all flags, close the upper pit gate blocking the upper pit road and remove the "Long Range In Use" sign.
- All people in the pits must wear eye & ear protection during live fire. If people are to stay in the pits, there must be live communication, e.g. radio or connected phone between the pits and the firing line at all times.
- If you are using Steel Targets, they will be placed no farther than the base of the DR Impact Berm on one of the two elevated platforms there. This is approx. 810 yards from the 1000-yard firing line.
- Shooters may use the practice backers as shown during long range orientation:
- Chain target carriages in the down position before removing your backer.
- Return backers to storage when finished.

Standard Operating Procedures

Shotgun Range

(The following is in addition to the Standard Operating Procedures for All Ranges)

Firearms and Gauges Allowed –

- Only shotguns of 12, 16, 20, 28 gauge and .410 caliber are allowed for trap, 5-stand and sporting clays.
- Use of DRRC approved shotgun shells is mandatory (this is to preserve the longevity of the shotgun screens).
- DRRC will sell shells to shooters.

- The only 12 and 20 gauge shells authorized for trap, 5-stand and sporting clays are those purchased from DRRC.
- 16 and 28 gauge and .410 caliber shot shells must be inspected and approved by the discipline director prior to use.
- Absolutely NO reloaded shot shells will be used for Trap, 5-Stand or Sporting Clays
- 10 gauge shotguns may be used on the shotgun patterning board.

Using the Shotgun Range –

- Shotgun is not available to independent use – only during supervised DRRC scheduled events.
- Load only one shell for singles; load only two shells for doubles or continental.
- Always keep your muzzle pointed in a safe direction.
- Never move from a station with a loaded gun.
- Always keep your finger off the trigger until ready to shoot.
- Fire only in established directions.

Sporting Clays – The Sporting Clays Director is responsible to close the gate to the Archery Range prior to all Sporting Clays matches and open it following matches.

5-Stand – The 5-Stand Director is responsible for setting up matches in such a manner as to prevent shot fallout on other ranges.

Trap –

- No one under the age of 18 is allowed to shoot on the TRAP fields without the supervision of a parent, guardian, or designated adult. The Range Safety Officer CANNOT be that designee.
- Individuals that have never shot TRAP before will be required to shoot their first round on a squad with other experienced shooters or under the supervision of an experienced individual authorized by the RSO.
- Only individuals that are shooting are permitted on the TRAP field unless they have permission of the RSO BEFORE the round begins.
- Keep your shotgun unloaded with action open until you are on a firing position and the TRAP house is clear.
- Only authorized personnel are permitted forward of the 16-yard line.
- All duds and misfired shells must be removed from club grounds by the owner. Do not leave them on the ground or put them in the trash.

DISCIPLINES and ACTIVITIES

(All discipline matches are open to the public at a nominal fee)

There are many disciplines that may interest members. The following disciplines may be offered at DRRC. Please check our website at www.douglasridge.org for more information about each discipline and their current status.

Pistol Disciplines

- **Handgun Silhouette** - Big and Small Bore Handgun Silhouette participants shoot at steel silhouette targets from 25 to 200 meters. Loaner equipment is available.
- **.22 Rimfire Challenge** – Introduction to competitive speed shooting. All .22lr with options for both pistol and rifle. 5-7 targets per stage. Shoot each stage 5x and add up your best 4 runs. No move and shoot, reloading or holster draw. Perfect for families and new shooters.
- **Practical Pistol** – Commonly referred to as Run and Gun because you do not just stand and shoot. Our matches are sanctioned and are a training ground for those who wish to learn and become proficient in USPSA shooting skills. This is not for first time shooters; you must be able to competently handle a handgun to participate.

Rifle Disciplines

- **Adult and Junior Small Bore** – Position shooting with .22 caliber rifles. Junior and adult programs are separate and held on different evenings though qualified juniors may participate in adult program.

Juniors may participate at little to no cost. Learn precision .22 caliber rifle shooting with league and match shooting available.

- **Service Rifle (Formerly CMP)** – Service Rifle is a shooting discipline using military rifles. Several classes and competitions are scheduled throughout the year. M1 Garand rifles (30-06 caliber) are available for use during the class as well as AR-15 rifles (.223 caliber) for lady or junior participants. This discipline is designed as an entry level activity. Newcomers are welcome.
- **High Power Rifle** - These are NRA sanctioned matches. DRRC has two courses of fire: mid-range 200,300 and 600 yards and long range 800,900 and 1,000 yards. Competitors are classified according to their ability. Any center fire rifle can be used. Sights can be iron or scope depending on the course of fire. Bi-pods and rests can also be used in some matches. Common calibers are .308, .223, and 6.5mm.

Multi Gun - A combination of pistol, pistol caliber carbine, rifle and shotgun. You will shoot multiple stages with multiple firearms. You shoot from varying positions at varying targets stationary and moving, paper and steel. Each stage is timed and the person with the fastest time at the end of the day gets bragging rights.

Shotgun Disciplines

- **Sporting Clays/5-Stand** - The closest to actual field shooting of all the shotgun sports. A variety of sizes of clay targets combined with different velocities and action in the air make sporting clays a fun activity. Shooters of all experience and ability levels are invited and it can be as competitive as they choose. No special shotgun is necessary – loaner equipment available.
- **Trap** - Shoot at clay birds from various distances. There are a variety of shooting games and frequently there are special fun shoots, money shoots and turkey shoots. No special shotgun is required – loaner equipment available.

Blackpowder Disciplines

- **Muzzle loading** - Includes black powder monthly shoots including muzzle loading rifle, pistol, shotgun and trade gun (smoothbore) with archery, knife & hawk throwing and flint & steel fire starting competitions.
- **Black Powder Cartridge (BPC)** - Shoot original, replica, or new BPC rifles. Long range practice and shoots held once a month.

Archery - Fixed firing line with shooting points from 10 to 60 yards. We have occasional training and monthly archery events.

Activities

- **Hunter Sight-In** - Hunter Sight-In is offered to the public on three weekends in September and one weekend in October. Any legal hunting gun and hunter is welcome to bring one or more guns for the purpose of sighting-in. We have a Range Officer who runs the line, several RSOs who are in charge of safety, and coaches who help the shooters with target spotting and getting the shooters' shots on target. We also have a bore-sighter who can help with that pesky scope.
- **Ladies League** – Every other Wednesday night is ladies league at DRRC. We primarily shoot handguns. Open to non-members at our guest fee rate. Instruction is available.
- **Well-Armed Women** – Clackamas chapter meets once a month in the clubhouse.

Education – DRRC offers/hosts a variety of classes including hunter education, ladies beginner pistol, reloading, Project Appleseed and various NRA pistol, rifle, and shotgun classes. Check our website for more information.

Members' Responsibilities

Want to Keep This Range? Then Keep This Range Safe!

Douglas Ridge Rifle Club is an all-volunteer organization. It is only through the diligence of its members that we are able to maintain a safe and quality organization. Each member is responsible to follow and uphold all that is contained within this handbook. We must be self-governing and self-policing. It is each member's responsibility to:

Be A Gun Safety Advocate - Talk to people about safe shooting, responsible gun ownership, and support of the shooting sports.

Be Courteous – We are a CLUB; we share and collectively own this facility. At all times we need to consider other persons and respect their rights and needs as well as expect they should respect ours. Let's keep DRRC a friendly place and help extend our respect and friendliness.

Be Knowledgeable

- Know the contents of this handbook.
- Know and follow the "Ten Basic Rules of Gun Safety".
- Know who your officers and Board members are.

Enforce Membership - If you observe a trespasser, ask them to leave and report it to the range host, a director or a board member. Remember, it is your dues and volunteer time that support this club.

Enforce Safety Rules - It is each member's duty to ensure all members and guests obey all safety rules. Remember, we are self-policing. Approach those who are not being safe and ask them to do so and get their name and member number. Report rule infractions to the discipline director, RSO, range host, or a board member.

Report Range Damage/Abuse – We have a beautiful and well-maintained range. Help us keep it that way. If you observe someone damaging or abusing the range or club property, ask the person to stop their actions and get their name and member number. Report damage or abuse to the discipline director, RSO, range host, or a board member.

Support the Shooting Sports and Your Right To Own Firearms

- Keep informed about current legislation.
- Write and call your elected representatives about your concerns.
- Vote in every election!

Help out! Volunteer at DRRC- Our club is supported and maintained by you, our members. Volunteer your time to help keep us a premier club. There are many ways you can put your skills and talents to good use that will apply towards your minimum eight hours of annual work:

- Workdays on Tuesday mornings doing general cleanup and maintenance (shoot afterwards!).
- Annual Spring workday (free lunch included!).
- Help at hunter sight-in (easy, friendly, and informative).
- Help the various disciplines run matches and practices.
- Become a RSO (help promote safe shooting).
- Special projects - Help with construction and other special projects.
- Man a DRRC table at gun shows.
- Make sure you turn in your properly filled out time slips afterwards.

Get Involved - Attend our monthly General Membership meetings. Let your voice be heard. Help make this club even better than it is.
